I swear on my dog's life that Neal Shusterman's Everlost is pure awesomeness. Kids who die go to a sort of place but not a place existing between life and death called Everlost. If they stay there instead of passing on, they have to stay in areas called "dead spots", where a significant death has happened.

Write a review. Oct 16, 2011 Lindsey Brewer rated it liked it. While the book was very slow to get going (they seemed to just be walking and walking and walking...) the characters eventually hooked me. Book 2 is so much better. I'd suggest to anyone wanting to read the series to just start with book 2. flag 2 likes · Like · see review.
