We revisit Lipset's law, which posits a positive and significant relationship between income and democracy. Using dynamic and heterogeneous panel data estimation techniques, we find a significant and negative relationship between income and democracy: higher/lower incomes per capita hinder/trigger democratization. Decomposing overall income per capita into its resource and non-resource components, we find that the coefficient on the latter is positive and significant while that on the former is significant but negative, indicating that the role of resource income is central to the result.

Data compiled by the Center for Disease Control and Prevention indicates an alarming and continuing increase in the prevalence of autism. Despite intensive research during the last few decades, autism remains a behavioral defined syndrome wherein diagnostic criteria lack in construct validity. And, contrary to other conditions like diabetes and hypertension, there are no biomarkers for autism. However, new imaging methods are changing the way we think about autism, bringing us closer to a falsifiable definition for the condition, identifying affected individuals earlier in life, and recognizing different subtypes of autism. The imaging modalities discussed in this book emphasize the power of new technology to uncover important clues about the condition with the hope of developing effective interventions. Imaging the Brain in Autism was created to examine autism from a unique perspective that would emphasize results from different imaging technologies. These techniques show brain abnormalities in a significant percentage of patients, abnormalities that translate into aberrant functioning and significant clinical symptomatology. It is our hope that this newfound understanding will make the field work collaborative and provide a path that minimizes technical impediments.

Paranormal romance is a supernatural force to be reckoned with. Although packed with a menagerie of werewolves, shapeshifters and assorted demons, its undisputed king is none other than our favourite centuries-old bloodsucker - the vampire. We're now living in a post-Buffy world of dark urban fantasy à la Laurell K. Hamilton's Anita Blake, Sherrilyn Kenyon's irresistible Dark Hunters and the blood-lusting soul mates of Christine Feehan. But it doesn't stop there. This Mammoth collection opens a vein to reveal the mind-boggling scope of the supercharged phenomenon created when vampires met romance. Let the biggest and brightest names in the paranormal romance business take you hot on the haemoglobin trail of the sexiest creatures of the night. Witness the bewildering array of complex vampire codes of conduct, dark ritual and dating practices, as they chat up the locals and engage in the most erotic encounters you will sink your teeth into this side of un-Death. These ain't your mother's vampires!

Astonishingly relevant portraits of the lives of seven women mystics Known to more than a million readers as the coauthor of the classic vegetarian cookbook Laurel's Kitchen, Carol Lee Flinders looks to the hunger of the spirit in Enduring Grace. In these striking and sustaining depictions of seven remarkable women, Flinders brings to life a chorus of wisdom from the past that speaks with remarkable relevance to our contemporary spiritual quests. From Clare of Assisi in the Middle East to Thérèse of Lisieux in the late nineteenth century, Flinders's compelling and refreshingly informal portraits reveal a common foundation of conviction, courage, and serenity in the lives of these great European Catholic mystics. Their distinctly female voices enrich their writings on the experience of the inner world, the nourishing role of friendship and community in our lives, and on finding our true work. At its heart, Enduring Grace is a living testament to how we can make peace with sorrow and disappointment and bring joy and transcendence into our lives.

Young Adult Teen Romance for readers of The Selection & Throne of Glass! The 4th Novel in the bestselling Courtlight series. In the heart of the Imperial Court, Ciardis Weathervane knows that death is coming for the empire. With her friends by her side and the new triad of Weathervanes, she's in a race against time to convince the court of the same. She must do her best to unite kith, mages, nobles and merchants under one cause - the fight to prevent a war. Soon she is forced to keep a secret that could exonerate her mother of the Empress's death, and is always one move away from stepping into diplomatic chaos. Throw in a daemoni prince who is showing interest in the youngest Weathervane, a jealous prince heir, and a irritated dragon with her own designs on Ciardis, and you have an imperial court in turmoil. This fourth novel continues the story of Ciardis Weathervane from Sworn To Conflict. Keywords: Courtlight series, fantasy, royals, romance, boxed set, Ciardis Weathervane, dragons, magic, empires, thrones, queens, ebooks, princes, princess, imperial courts, nobility, teen, YA, young adult, epic reads, love, fairy tales, crown, happily ever after, coming of age, mages, kids, middle grade, hearts, collection, romantic, box set, series, engagement, kingdom, action, adventure, betrothed, swords, sorcery.

Jay is tired of the girl he loves mocking him in front of her friends, so he decides to get a makeover and get back at her. His plan is to get her to fall in love with his new image and not tell her it's him. Only after meeting her does he find the real truth, she once was like him and uses him as her cover. Can this be a match made in heaven, find out.

This collection brings into dialogue authors from a range of disciplines and perspectives to address the thorny question of how to balance the demands of «democratic dialogue» with the reality of a world in which each voice does not carry equal weight. Should rules be in place, for example, that correct for such imbalances by privileging some voices or muting others? Should separate spaces be created for traditionally disadvantaged groups to speak only among themselves? Is democratic dialogue in an inclusive sense even a possibility in a world divided by multiple dimensions of power and privilege? Leading theorists from several countries share a concern for social justice and present radically different interpretations of what democracy means for educational practice. In a format unusual for such collections, the essays speak directly to each other about significant moral, philosophical, and practical differences regarding how to effectively engage students as critical participants in classrooms fraught with power and difference. The authors draw from philosophy, critical race theory, sociology, feminist, and poststructural studies to address topics including hate speech, freedom of expression, speech codes, the meanings of silence, conceptions of voice and agency, and «political correctness». They explore honestly and self-critically the troubling and disturbing dimensions of speech and silence that situate the classroom as a volatile microcosm of contemporary political contradictions.
