Assure your mastery of maternal and newborn nursing knowledge while honing your critical-thinking and test-taking skills. An easy-to-follow format parallels the content of your course, topic by topic, resulting in maternal and newborn content made manageable. The 3rd Edition of this popular resource features multiple-choice and alternate-format questions that reflect the latest advances in maternal-newborn nursing and the latest NCLEX-RN® test plan. Rationales for both correct and incorrect answers as well as test-taking tips help you critically analyze the question types. You ' ll also find a wealth of alternate-format questions, including fill in the blank and select all that apply (SATA).

Get ready for your neonatal intensive care nursing certification exam with the only review developed in collaboration with three leading nursing organizations! From AACN, AWHONN, and NANN, Certification and Core Review for Neonatal Intensive Care Nursing, 5th Edition prepares you for your examination with hundreds of high-quality study questions and realistic test simulation. Based on the latest test plans of the AACN ' s CCRN®-Neonatal exam and the NCC ' s Neonatal Intensive Care Nursing (RNC-NIC) exam, review questions cover the changes to the Core Curriculum and reflect the latest evidence, essential knowledge, and best practices. New to this edition are three new chapters and 225 completely new review questions. This powerful study tool offers unparalleled preparation for your certification exam! Endorsed by the three most authoritative associations in neonatal intensive care nursing: the American Association of Critical-Care Nurses (AACN); the Association of Women ' s Health, Obstetric, and Neonatal Nurses (AWHONN); and the National Association of Neonatal Nurses (NANN). Realistic exam practice is offered through 675 total questions that mirror the certification exam content, the multiple-choice question format, and the distribution of content. Answers are provided for each question, accompanied by rationales and references, to enhance your understanding of the material. Online flexibility allows you to organize review questions and test format by your preferred examination, either the AACN or NCC. Online exam simulation — included free with each new copy of the book — mirrors the test-taking experience with an interactive, timed format. Customized study sets you choose whether to work through online questions in Study Mode or Examination Mode. Online remediation includes rationales for both correct and incorrect answers, and in-book remediation provides rationales for correct answers. A compact, portable size makes the book easier to study anytime, anywhere. 225 NEW review questions include 75 in the book and 150 additional online questions on the Evolve companion website. Thoroughly UPDATED review content reflects AACN ' s latest CCRN®-Neonatal exam and the NCC ' s latest Neonatal Intensive Care Nursing (RNC-NIC) exam, information in Core Curriculum for Neonatal Intensive Care Nursing, 5th Edition, and the newest evidence-based guidelines for neonatal critical care. NEW! Three new chapters include Grieving Process, Quality Improvement, and Facilitation of Learning. NEW focus on culturally sensitive care is included in an expanded Family Integration and Culturally Sensitive Care chapter. UPDATED rationales in the Answer Key are referenced to the most recent literature and evidence-based guidelines. Compatibility with iPads, iPhones, and other mobile devices allows online exam practice that is easy and convenient.

Mometrix Test Preparation's Maternal Newborn Nursing Exam Secrets Study Guide is the ideal prep solution for anyone who wants to pass their Maternal Newborn Nurse Exam. The exam is extremely challenging, and thorough test preparation is essential for success. Our study guide includes: * Practice test questions with detailed answer explanations * Step-by-step video tutorials to help you master difficult concepts * Tips and strategies to help you get your best test performance * A complete review of all Maternal Newborn test sections * Factors Affecting Maternal/Neonatal Outcomes * Maternal Assessment and Management in the Postpartum Period * Newborn Assessment and Management * Aspects of Professional Practice Mometrix Test Preparation is not affiliated with or endorsed by any official testing organization. All organizational and test names are trademarks of their respective owners. The Mometrix guide is filled with the critical information you will need in order to do well on your Maternal Newborn exam: the concepts, procedures, principles, and vocabulary that the National Certification Corporation (NCC) expects you to have mastered before sitting for your exam. The Factors Affecting Maternal/Neonatal Outcomes section covers: * Antenatal factors * Intrapartal factors * The Maternal Assessment and Management in the Postpartum Period section covers: * Physiologic changes and physical assessment * Nursing care and education * Lactation and newborn feeding The Newborn Assessment and Management section covers: * Transition to extrauterine life * Physiologic changes and physical assessment * Nursing care and family education The Aspects of Professional Practice section covers: * Research * Guidelines for practice * Ethical/legal issues ...and much more! Our guide is full of specific and detailed information that will be key to passing your exam. Concepts and principles aren't simply named or described in passing, but are explained in detail. The Mometrix Maternal Newborn study guide is laid out in a logical and organized fashion so that one section naturally flows from the one preceding it. Because it's written with an eye for both technical accuracy and accessibility, you will not have to worry about getting lost in dense academic language. Any test prep guide is only as good as its practice questions and answer explanations, and that's another area where our guide stands out. The Mometrix test prep team has provided plenty of Maternal Newborn practice test questions to prepare you for what to expect on the actual exam. Each answer is explained in depth, in order to make the principles and reasoning behind it crystal clear. Many concepts include links to online review videos where you can watch our instructors break down the topics so the material can be quickly grasped. Examples are worked step-by-step so you see exactly what to do. We've helped hundreds of thousands of people pass standardized tests and achieve their education and career goals. We've done this by setting high standards for Mometrix Test Preparation guides, and our Maternal Newborn Nursing Exam Secrets Study Guide is no exception. It's an excellent investment in your future. Get the Maternal Newborn review you need to be successful on your exam.

Step into maternal-neonatal nursing with confidence and know-how, with the fully updated Maternal-Neonatal NursingMade Incredibly Easy®, 4th Edition. This friendly guide ' s colorful images and helpful learning aids offer the latest in nursing interventions for prenatal care basics, including high-risk pregnancy, family planning, contraception and infertility, labor and birth, and postpartum care, presented in the enjoyable Incredibly Easy style. A better way to learn maternal and newborn nursing! This unique presentation provides tightly focused maternal-newborn coverage in a highly structured text

With easy-to-read coverage of nursing care for women and newborns. Foundations of Maternal-Newborn & Women's Health Nursing, 6th Edition shows how to provide safe, competent care in the clinical setting. Evidence-based guidelines and step-by-step instructions for assessments and interventions help you quickly master key skills and techniques. Also emphasized is the importance of understanding family, communication, culture, client teaching, and clinical decision making. Written by specialists in maternity nursing, Sharon Smith Murray and Emily Stone McKinney, this text reflects the latest QSEN competencies, and the accompanying Evolve website includes review questions to prepare you for the NCLEX® exam! Nursing Care Plans help you apply the nursing process to clinical situations. Procedure boxes provide clear instructions for performing common maternity skills, with rationales for each step. UNIQUE! Therapeutic Communications boxes present realistic nurse-patient dialogues, identifying communication techniques and showing to respond when encountering communication blocks. Communication Cues offer tips for interpreting patients' and families' verbal and nonverbal communication. Critical Thinking exercises focus on clinical situations designed to test your skills in prioritizing and critical thinking. Updated drug guides list important indications, adverse reactions, and nursing considerations for the most commonly used medications. Check Your Reading helps you assess your mastery of key content. Critical to Remember boxes highlight and summarize need-to-know information. Want to Know boxes provide guidelines for successful client education. Glossary provides definitions of all key terms. NEW! Safety Alerts help you develop competencies related to QSEN and safe nursing practice. NEW! Unfolding case studies help you apply what you've learned to practice. UPDATED Evidence-Based Practice boxes highlight the latest research and the most current QSEN (Quality and Safety Education for Nurses) practice guidelines for quality care. UPDATED content includes the late preterm infant, fetal heart rate pattern identification, obesity in the pregnant woman, and the QSEN competencies.

Perfect as a resource in the field or for exam preparation, this authoritative reference from the Association of Women ' s Health, Obstetric, and Neonatal Nurses (AWHONN) includes in-depth coverage of the most common neonatal disorders and their management. The concise outline format highlights the essentials of each condition including definition, etiology, pathophysiology, signs and symptoms, diagnostic tests, treatments, and outcomes to help you find important information quickly. This new edition also features an increased focus on evidence-based practice, new CAMTS and AAMS guidelines, new techniques for PICC placement, and changes to the Neonatal Resuscitation Program. All necessary information to prepare for the neonatal intensive care nursing certification examination is included. Concise outline format provides access to important nursing considerations associated with the management of the most common conditions in the neonate. Text provides a collaborative effort between the three most authoritative associations in neonatal intensive care nursing - AWHONN, AACN, and NANN. Information on families, ethics, legal issues, research, case management, and the transition to home acknowledge the full scope of neonatal nursing practice. NEW! CAMTS and AAMS guidelines, techniques for PICC placement, and changes to the Neonatal Resuscitation Program are just a few of the updates that reveal the importance the new edition places on safety practices and procedures. NEW! Updated chapter on Patient Safety includes selected improvement strategies and resources for neonatal nurses to build a patient safety toolkit, discusses TeamSTEPS (Team Strategies and Tools to Enhance Performance and Patient Safety), and recognizes human issues, such as shift work and fatigue. NEW! Increased focus on evidence-based practice for preterm infants, medications, and antepartum-intrapartum complications sets the standard for neonatal nursing practice. NEW! Strategies to promote inclusionary care better reflect nursing care today by focusing on family-centered care, comprehensive perinatal records, health care teams in the NICU, and best practices in the care of the late preterm infant. NEW! Comprehensively revised chapter on Immunology identifies risk factors for infection associated with term and preterm infants, distinguishes clinical symptoms and therapies associated with TORCHES CLAP spectrum infections, and includes prevention strategies for hospital-acquired infections. NEW! Thoroughly updated content and references reflect currency and technologic advances. NEW! Refocused chapter on Developmental Care guides the nurse to use assessment within the context of the environment and situation to initiate interventions in the moment or use patterns of responses for developing plans of care and presents core measures on evaluating developmental care practices in the NICU.
