tackle many of the widely accepted "myths" of film development. They reject the trend toward 'scientific evaluation' of films and developers in favor of the photographer developing a personal aesthetic without relying exclusively on densitometry or H&D curves. Steve Anchell is a contributing editor to Outdoor Photographer and PhotoWork magazines. He has written columns, feature articles, and interviews for Camera & Darkroom, View Camera, PIC, Shutterbug, Photo Shopper, and PhotoPro magazines. His previous two books with Focal Press, The Darkroom Cookbook and The Variable Contrast Printing Manual are photography best-sellers. Steve's photographs have been exhibited in galleries and are shown in private collections. He photographs and prints both color and black-and-white with 35mm, 21 / 4 and large-format cameras. He has conducted over 80 photographic and darkroom workshops since 1979. Steve is currently the program director for the Photographer's Formulary Workshops in Condon, Montana. In early 1998, the first collection of his personal work, entitled The Nude at Big Sur, will be published by Whitefish Editions. Bill Troop is a highly respected independent photochemist.

The Encyclopedia of Twentieth-Century Photography explores the vast international scope of twentieth-century photography and explains that history with a wide-ranging, interdisciplinary manner. This unique approach covers the aesthetic history of photography as an evolving art and documentary form, while also recognizing it as a developing technology and cultural force. This Encyclopedia presents the important developments, movements, photographers, photographic institutions, and theoretical aspects of the field along with information about equipment, techniques, and practical applications of photography. To bring this history alive for the reader, the set is illustrated in black and white throughout, and each volume contains a color plate section. A useful glossary of terms is also included.

Anyone can cook in the French manner anywhere, wrote Mesdames Beck, Bertholle, and Child, with the

right instruction. And here is the book that, for forty years, has been teaching Americans how. Mastering the Art of French Cooking is for both seasoned cooks and beginners who love good food and long to reproduce at home the savory delights of the classic cuisine, from the historic Gallic masterpieces to the seemingly artless perfection of a dish of spring-green peas. This beautiful book, with more than one hundred instructive illustrations, is revolutionary in its approach because: It leads the cook infallibly from the buying and handling of raw ingredients, through each essential step of a recipe, to the final creation of a delicate confection. It breaks down the classic cuisine into a logical sequence of themes and variations rather than presenting an endless and diffuse catalogue of recipes; the focus is on key recipes that form the backbone of French cookery and lend themselves to an infinite number of elaborations bound to increase anyone's culinary repertoire.
