The White Goddess is perhaps the finest of Robert Graves's works on the psychological and mythological sources of poetry. In this tapestry of poetic and religious scholarship, Graves explores the stories behind the earliest of European deities—the White Goddess of Birth, Love, and Death—who was worshipped under countless titles. He also uncovers the obscure and mysterious power of "pure poetry" and its peculiar and mythic language.

This labyrinthine and extraordinary book, first published more than fifty years ago, was the outcome of Graves's vast reading and curious research into strange territories of folklore, mythology, religion and magic. Erudite and impassioned, it is a scholar-poet's quest for the meaning of European myths, a polemic about the relations between man and woman, and also an intensely personal document in which Graves explored the sources of his own inspiration and, as he believed, all true poetry. This new edition has

# File Type PDF The White Goddess A Historical Grammar Of Poetic Myth Robert

been prepared by Grevel Lindop, who has written an illuminating introduction. The text of the book incorporates all Graves's final revisions, as well as his replies to two of the original reviewers, and a long essay in which he describes the months of inspiration in which *The White Goddess* was written.

In 1948 Robert Graves published *The White Goddess*. His study of poetic mysticism and goddess worship has since become a founding text of Western paganism. As Wicca emerged from what Graves called, a few hopeful young people in California, to over two million strong, *The White Goddess* has achieved near liturgical status. This rising appreciation brings all the problems of liturgical texts. Many pagans consider Graves' work like the goddess herself; awe inspiring but impenetrable. *Stalking The Goddess* is the first extensive examination of this enigmatic text to come from the pagan community and guides readers through bewildering forests of historical sources, poems, and Graves' biography to reveal his unorthodox claims and entrancing creative process. Relentlessly perusing each path, it explores the uncharted woods and reveals the hidden signposts Graves has posted. The hunt for the goddess spans battlefields, ancient manuscripts, the British museum, and Stonehenge. En route we encounter not only the goddess herself but her three sacred animals; dog, roebuck, and lapwing. Perhaps the muse cannot be captured on her own grounds, but now at least there is a map.

Edward Venn-Thomas lives in the twentieth century but has been mysteriously transported to the future, and the apparently idyllic society of New Create, where there is no hunger, no war and no dissatisfaction. However Venn-Thomas is starting to find life

# File Type PDF The White Goddess A Historical Grammar Of Poetic Myth Robert

among the New Cretans rather dull. He comes to realize that their perfect existence, inspired by the poets and magicians of their strange occultic religion, lacks one fundamental thing - evil. So Venn-Thomas sees it as nothing less than his duty to introduce them to the darker side of life. First published in 1949 and also known as *Watch the North Wind Rise*, Graves's novel is a thrilling blend of utopian fantasy, science fiction and mythology.

Examines the language of ancient Celtic and Mediterranean poetic myths, probing the role of the all-encompassing female figure, the White Goddess, in the earliest forms of poetry.
