What is the world of the 21st century like now that the centrality of the West is no longer given? How were the societies and cultures of today's world together with their interconnections forged, and what is driving human society in our times? In short, what is the state of the world today as we enter the second decade of the 21st century? This is the first book which deals with planetary human society as whole. It is a beginner's guide to the world after the West and after globalization, compact, portable, and jargon-free. It is aimed at everybody who, even with experience, has kept a beginner's curiosity of the world, to everybody who does not know everything they want to know about it, about the good, the evil, and the salvation of the world. It lays bare the socio-cultural geology of the world, its major civilizations, its historical waves of globalization, its family-sex-gender systems, and its pathways to modernity. It outlines the dynamics of the world, its basic drives, the contours of its most important global and sub-global processes. It presents the big team players on the world stage, populous as well as rich countries, missions and movements as well corporations and cities. It traces the life-courses of men and women on all the continents, from their birth and childhood to their old age, and their funeral.

'Sometimes you just have to do something, don't you? Sometimes an injustice comes along and you think 'No, this cannot be', and rather than just turn off the TV, you know it's time to act' So begins Isabel Losada's extraordinary FOR TIBET WITH LOVE in which she explores whether it's possible for an ordinary person to change the world, just a little, and if something so serious can be achieved with joy in one's heart. From visits to Nepal and Tibet, to meetings with the Chinese ambassador and Tibetan awareness-raising groups, Isabel single-handedly hatches a stunning PR coup involving Nelson's Column, a 15 metre banner and a base-jumping parachutist that captured headlines worldwide. And then she meets the Dalai Lama... Warm and funny, moving and thought-provoking, the astonishing FOR TIBET WITH LOVE celebrates the fact that we can make a difference.

In Light of the World: A Beginner's Guide to Advent, author, professor, and biblical scholar Amy-Jill Levine explores the biblical texts surrounding the story of the birth of Jesus. Join her as she traces the Christmas narrative through the stories of Zechariah and Elizabeth, Mary, the journey to Bethlehem, and the visit from the Magi. These stories open conversations around connections of the Gospel stories to the Old Testament, the role of women in first-century Jewish culture, the importance of Mary's visitation and the revolutionary implications of Mary's Magnificat, the census and the stable, and the star of Bethlehem and the flight to Egypt. The book provides a rich and challenging learning experience for small groups and individual readers alike. As part of a larger four-week study that is perfect for Advent, it includes a DVD and a comprehensive leader guide.

The beloved creator of "Notes from the Universe" distills a career's worth of inspiration into elegant, brief lessons for making our way through the world--conceived as a guidebook for his young daughter yet relevant to everyone who's living a life on earth. (In other words, everyone.) Mike Dooley returns with what he expects to be his most impactful book yet: a volume of elegant, brief lessons conceived as a message from a father to his daughter, and equally relevant to everyone who's living a life on earth. (In other words, everyone.) Mike is a beloved teacher and thought leader for seekers around the world, known for his trademark humor, wisdom, and sheer joy in living--all of which he's shared in his 17 books and his free daily e-mails of "Notes from the Universe." His *Beginner's Guide to the Universe*, inspired by such classics of gem-like wisdom as *Life's Little Instruction Book*, *The Four Agreements*, and *The Things You Can See Only When You Slow Down*, gives voice to his most essential, heartfelt advice about living deliberately and creating consciously. Guiding the reader thoughtfully and joyfully through a range of topics--including family and relationships, power and responsibility, adversity and bouncing back from it, even the nature of heaven, angels, and God--Mike succeeds in making a happy life in this universe seem easily within our reach. With short passages of text placed artfully on each page, and a format that's a pleasure to hold in the hand, this is an ideal gift for a parent, a parent-to-be, a child, a new grad, a dear friend, or anyone who needs a dose of Dooley, whether they know it or not.

"Into the maelstrom of unprecedented contemporary debates about immigrants in the United States, this perfectly timed book gives us a portrait of what the new immigrant experience in America is really like. Written as a "guide" for the newly arrived, and providing "practical information and advice," Roya Hakakian, an immigrant herself, reveals what those who settle here love about the country, what they miss about their homes, the cruelty of some Americans, and the unceasing generosity of others. She captures the texture of life in a new place in all its complexity, laying bare both its beauty and its darkness as she discusses race, sex, love, death, consumerism, and what it is like to be from a country that is in America's crosshairs. Her tenderly perceptive and surprisingly humorous account invites us to

With over sixty million casualties World War II was the bloodiest conflict in history. In this incisive introduction, Christopher Catherwood covers all the key battles, while giving the wider story behind them. He also brings a fresh angle to the conflict, emphasising the huge impact of the preceding Sino-Japanese War on World War II and the relative unimportance of the British campaign in Africa. From the impact of the Hiroshima bombing to the horrors wreaked by the Red Army and the Nazis, Catherwood makes clear the legacy of the war today. Full of text-boxes revealing key details about intelligence, weaponry, and the social milieu of the conflict, there is no better brief introduction.
